To holders of the First Refunding Mortgage Bonds of THE KANSAS & COLORADO PACIFIC **RAILWAY COMPANY**

Holders of approximately three-quarters of the First Refunding Mort-gage Bonds of The Kansas & Colorado Pacific Railway Company out-standing in the hands of the public have requested the undersigned Com-

mittee to represent them and nearly all of these bonds have been deposited with the Committee under a Protective Agreement dated December 1, 1915. In compliance with the request from certain holders the time for depositing bonds under said Protective Agreement has been extended to January 15, 1916, after which date no additional bonds will be accepted except at the discretion of the Committee and upon such terms and conditions in the protection of the Committee and upon such terms and conditions are in the second conditions.

Believing that the published Plan of Readjustment of the Missourl

Believing that the published Plan of Readjustment of the Missouri Pacific Railway Company and the St. Louis, Iron Mountain & Southern Railway Company dated July 1, 1915, does not fairly recognize the value or importance of the railroad property securing the bonds of The Kansas & Colorado Pacific Railway Company, the undersigned Committee is con-sidering plans for the benefit and protection of its depositors independently of said Plan of Readjustment. The Committee has already taken steps to investigate the history of the original issue of the bonds of The Kansas & Colorado Railre Pallyny Company.

& Colorado Pacific Railway Company, the acquisition of \$16,715,000 par value of said bonds, by the Missouri Pacific Railway Company and the pledge of said bonds under the First & Refunding Mortage of the Missouri

All holders of bonds of The Kansas & Colorado Pacific Railway Com-

B. FULTON CUTTING, Chairman,

Committee.

J. S. WILSON, Jr., CHARLES B. ALEXANDER, P. KINGSBURY CURTIS,

ABTHUR O. CHOATE, FRANCIS H. BERGEN,

an holders of Jonds of The Kansas & Colorado Pacific Railway Company who desire to participate in the benefits which may result from the efforts of the undersigned Committee are requested to deposit their bonds with the Franklin Trust Company, the depositary for the committee, at No. 46 Wall Street, New York City, ON OR BEFORE JANUARY 15, 1916. Transferable Certificates of Deposit will be reissued for such bonds.

TO THE HOLDERS OF

Autosales Gum and Chocolate Company

Six Per Cent. Twenty-Year Sinking Fund Gold Bonds

Shares of Capital Stock

Default having occurred in interest due on said bonds, and Receivers of the Company having been appointed upon application made to the United States District Court, the undersigned, at the request of holders of bonds and stock to a large amount, have consented to act as a Committee and purpose promptly to file with GUARANTY TRUST COMPANY OF NEW YORK, as Languistry, a Plan and Agreement of Reorganization.

Lepositary, a Plan and Agreement of Reorganization.

Pacific Railway Company.

STETTINIUS ENTERS J. P. MORGAN FIRM

Former Head of Diamond Match Co. Made Partner of Bankers.

Edward R. Stettinius, former president of the Diamond Match Company but for several months associated with the firm of J. P. Morgan & Co. in the capacity of the head of their purchasing department for the Allies, has been made a pairtner of the firm. Several weeks ago Mr. Stettinius resigned from the office.

so his time to the work which he was segraged in for the firm of J. P. Morgan & Co. became the commercial agents for Great Britain and France in this country they secured the services of Mr. Stettinius to head the department organized to carry on that work. Mr. Stettinius secured a leave of absence from the Diamond Match Company, but soon found his labors with the Morgan firm too engrowshing to enable him to give the necessary time to the direction of the affairs of the match company and his resignation of the match company and his resignation of the affairs of the match company and his resignation of the affairs of the match company and his resignation of the affairs of the match company and his resignation of the affairs of the match company and his resignation. He is known in Wall Street as one of the match control to the firm of J. P. Morgan & Co. came as somewhat of a surprise to the financial district, which had not even a rumor that Mr. Stettinius was to become a member of the banking firm. GOSSIP OF WALL STREET.

The universal comment was that the stock market had acted extremely well yesterday. The market took a great deal of stock and took it well. But another conclusion was that the new diplomatic complications were liable to postpone at least a resumption of the main advance. The trading was more active, but the increase in business was in specialties, which advanced apparently for particular reasons, or at least were easily moved by professional efforts. Nevertheless, while a strong underlying position was exhibited in the failure of sentiment to show alarm the whole affair was ment to show alarm the whole affair was a grievious disappointment to the Street. The sinking of the Persia could hardly of the head of their purchasing department for the Allies, has been made a partner of the firm. Several weeks ago Mr. Stettinius resigned from the office of president of the Diamond Match Company in order that he might devote all of his time to the work which he was off his time to the work which he was engaged in for the firm of J. P. Morgan & Co.

Shortly after J. P. Morgan & Co. became the commercial agents for Great in the second of the country, and everything seemed strongly disposed to lift prices definitely into new ground.

Mexican Petroleum.

another that insiders had been caught short. It hardly seems necessary, however, to search beyond the force of a large and bold speculative party converging upon a relatively narrow market. Covering of short contracts may have contributed an influence, but it has undoubtedly been merely incidental. A new oil combination of the kind now proposed has been talked of for a long time. There is nothing essentially new about it. But coming at an opportune time, when oil prices have had a tremendous boom and when Mexican conditions indicated that the operations of the Mexican Petroleum Company might be conducted without fear-of interruption, the speculative imagination has been excited.

Callfornia Petroleum.

Strength of Mexican Petroleum has been less remarkable in every way than the movement in California Petroleum, particularly the common stock. A great many people have realized the speculative possibilities of the Mexican property, provided oil could be got out of the country. But few people with knowledge of the situation in regard to California. provided oil could be got out of the country. But few people with knowledge of the situation in regard to California Petroleum have been able to feel much enthusiasm over it, even with the shares at a much lower level than the present. The rise in California Petroleum stocks appears to have been made under the impression that the company is to be taken into the new combination on extremely advantageous terms. Well informed people say that this is taking a good deal for granted, and that it is taking still more for granted to conclude that it will be taken in on the basis represented by the present level. It is even said that an inside tip to sell went out when the common stock was at a much lower level than the present.

The rise in California Petroleum stocks

102 appears to have been made under the
impression that the company is to be basis represented by the present level. It is even said that an inside tip to sell went out when the common stock was in the thirties.

Ajaz Rubber.

Chandler Bros. & Co. have prepared a special letter on the stock of the new Ajax Rubber Company. Their opinion of stock is presented in the following frank manner: "Purchasers of the stock of the Ajax Rubber Company will not have to wait for dividends. We are informed that during the present month of January the directors will declare the initial quarterly dividend of \$1.25 a share on the new stock and that divi-dends will be maintained regularly thereafter at the rate of \$5 a share n January I:

SHIPYARD TO ENLARGE **UNDER NEW PRESSURE**

Large Inquiries for Ocean Going Freight Boats-Hard to Place Orders.

The National Enameling and Stamp-The National Enameling and Stamping Company, which is understood to have recently secured a profitable contract for the stamping of heimets and breastplates for the soldiers in the war zone, is now in the market for 15,000 tons of basic iron for shipment over the second and third quarters of this year. The iron will be purchased here, but delivery will be made at the Granite City, Ill., works, opposite St. Louis. Most of the contracts for helmets are said to have been placed by the French Government, that recently adopted a new headgear for the soldiers, especially those engaged in trench work.

fabricated structural steel with the Virginia Bridge and Iron Works. The Cincinnati, Hamilton and Dayton Railroad has awarded a contract for 400 tons of bridge work to an independent fabricator. The George A. Fuller Company, it is understood, will secure the contract for the building of the Mohican Hotel, to be constructed at New London, Conn. About 450 tons of fabricated structural steel will be required. Frank A. Munsey is the owner and is endeavoring to place contracts by which the hotel will be ready for business next spring, but because of the difficulty in securing steel promptly at the present time there is some doubt that the building will be ready as desired. ing will be ready as desired.

Marine work continues especially active and there are large inquirels in the market for oceangoing freight boats. market for oceangoing freight boats.

One interest is endeavoring to place orders for a fleet of six boats running from 2,000 to 8,000 tons burden. Because most of the ways of the Eastern shipbuilders are full for a year or more negotiations are being conducted with more or less difficulty. It was reported yesterday, however, the Newport News Shipbuilding Company was preparing to make great improvements at its yards, which will include an increase in capacity. Several million dollars will be expended.

The wire drawers experienced an especially active month in December. From preliminary returns it is indicated that specifications received by all the wire companies last month aggregated 320,000 tons. It is understood that about two-thirds of this, or about 220,000 tons, was taken by the American Steel and two-thirds of this, or about 220,000 tons, was taken by the American Steel and Wire Company. Export contracts were the lighest in many months. It is estimated that orders for only about 40,000 tons were received, of which about half were taken by the large interests. This would indicate that domestic specifications of American Steel and Wire Company last month were 200,000 tons. pany last month were 200,000 tons, or practically the same as the shipments. The shipuments were increased by drawing on warehouse stocks.
